### RESEARCH & IDEAS JOURNAL

In preparation for your Personal Investigation, 60% Project you need to begin exploring ideas, interests and engaging topics from within the art world.

You need to begin working into an A5 sketchbook as you explore your responses to the above starting points. Over summer you should research into at least one area. Your research should include: Spider Diagrams, Relevant Artist Research & Relevant Artists Styles/ Movements. Your research should be presented creatively in your journal.

You will build on and work into your journal as you develop your artistic journey through your Personal Investigation.
